# DUCTILE IRON HEEL GUARD SUMP GRATES

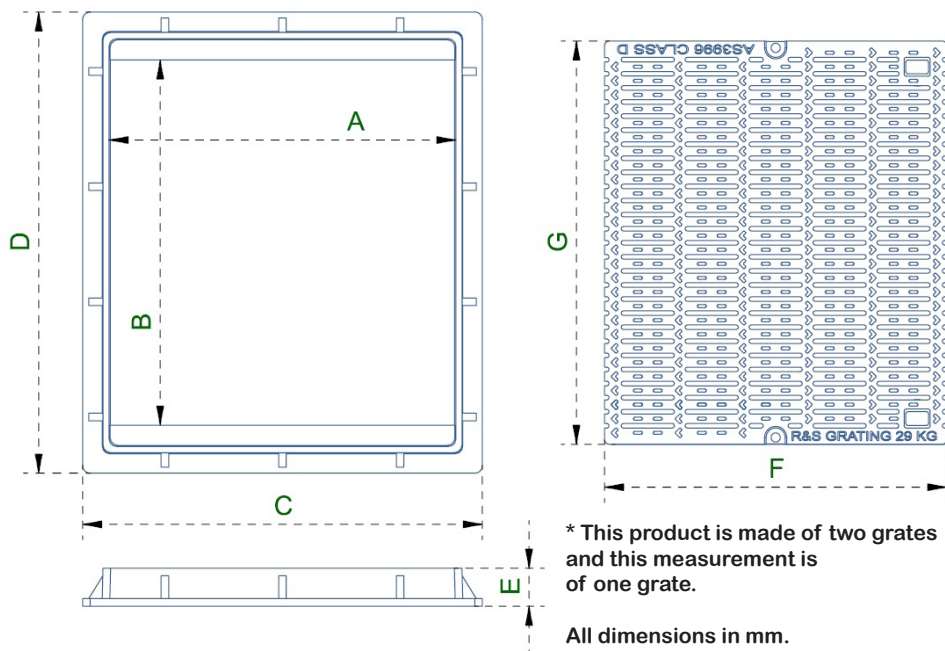

For more information, visit  
[www.grating.com.au/heelguard](http://www.grating.com.au/heelguard)

Ductile iron heelguard sump grates represent the ultimate in grate safety and functional design. With a 5mm gap between surface bars, heelguard sump grates are impenetrable by wheelchair and bicycle tyres as well as high heel shoes.

In addition to the minimal surface gap, heelguard grates also feature R&S Grating's Boomerang anti-slip pattern, making them ideal for areas that pedestrians regularly access, eliminating the risks of twisted ankles, lodged tyres and slips and spills.

While pedestrians may traverse the grate, the range is also designed to take the toughest of loads, with light duty (class B) for residential driveways & light commercial vehicles, as well as a heavy duty (class D) range for trucks and other heavier commercial vehicles.

The range is also bolted down for anti-theft and tampering and also includes standard AS3996 lifting points in all grates.

\* This product is made of two grates and this measurement is of one grate.

All dimensions in mm.

## Light Duty (Class B)

Pit Size	Product Code	A	B	C	D	E	F	G	Grate Weight
300x300	SG-L-DG-HG3030	331	321	423	471	35	325	375	9 kg
450x450	SG-L-DG-HG4545	456	450	548	600	35	450	495	17 kg
600x600	SG-L-DG-HG6060	626	626	718	776	35	620	680	32 kg
900x600	SG-L-DG-HG9060	947	626	1039	776	35	470*	680	25 kg*
900x900	SG-L-DG-HG9090	936	926	1024	1074	35	464*	980	43 kg*

## Heavy Duty (Class D)

Pit Size	Product Code	A	B	C	D	E	F	G	Grate Weight
450x450	SG-H-DG-HG4545	456	480	545	606	50	450	530	27 kg
600x600	SG-H-DG-HG6060	626	626	715	775	50	620	680	50 kg
900x600	SG-H-DG-HG9060	947	626	1036	775	50	470*	680	39 kg*
900x900	SG-H-DG-HG9090	936	926	1025	1075	50	465*	980	70 kg*
